Every Dive
Every Day

What's New from UK

Continuing improvements to UK LED lights as the technology develops

UK brings you the advantages of whiter light and longer battery life before dimming with the eLED family of Dive Lights.

[SEE PAGES 4-5](#)

Sunlight SL4 eLED

A classic favorite now with with a specially selected high intensity white LED for long life and farther reach underwater.

[SEE PAGE 5](#)

UltraCase

Designed for all-weather environments to protect cameras, electronics and tools. Includes new auto venting latch.

[SEE PAGE 12](#)

Specialized Dive “Paks”

The Brightest and Toughest from UK

Tribal Pak

UK brings you the best of our best with the finest lights and titanium knife for the perfect diving experience. All three are in bright yellow color for maximum visibility underwater.

Pak Includes:

- **Light Cannon 100** with high efficiency HID illumination shines farther and brighter.
- **Mini Q40** works as a mask light for checking gauges or peeking under ledges. Over twice as bright as premium lights of similar size.
- **Blue Tang Titanium** dive knife will never corrode. Includes straight and serrated edges, line cutter, signaling pommel and many other features.

ProPak

Now UK brings you three things you need for a great dive in one convenient economical package.

Pak Includes:

- **Sunlight C8** with twin lamp reflector is the brightest and yet smallest incandescent alkaline powered light we offer.
- **Mini Q40** works as a mask light for checking gauges or peeking under ledges. Over twice as bright as premium lights of similar size.
- **Remora Dive Knife** made with our own HYDRALLOY steel is the one knife all divers should carry for cutting rope and line. It attaches to the BC or air hoses and is always with you.

Fathom Pak

UK lets you explore the depths in confidence with the perfect set for night dives. The Fathom Pak meets advanced training requirements. All cases are high-visibility neon yellow.

Pak Includes:

- **Sunlight C8** with unique twin lamp reflector gives you a backup or the option to switch between high and low beams underwater.
- **Mini Q40** is bright, compact and versatile serving as the perfect BC pocket light or mask light.
- **Sunlight SL4** is the smallest and brightest 4 C-cell dive light made. Perfect for photo spotting and small enough to look into cracks and under ledges
- **BONUS:** Dive Beacon with lanyard for “always on” night dive marking.

eLED Pak

See the reef under a new light with this collection of LED lights. Includes the latest in UK eLED technology.

Pak Includes:

- **Sunlight C4 eLED** High intensity 5 watt LED set in a large reflector provides maximum efficiency and sunlight white light for inspecting marine life among the rocks.
- **Mini Q40 eLED plus** powers a bright white LED at 2 watts in a case small enough to carry on your mask strap. Also works as a photo spotting light or backup light.
- **Mini Pocket Light eLED** clips to your cap while walking the deck at night. Great for maps and charts. The small size allows you to position light exactly where you need it when doing intricate repairs.

eLED Exclusively By UK

Now the leader in underwater lighting technology gives you even more reasons to take UK...every dive, every day.

Experience the next generation in eLED!

What Does The "e" In eLED Mean?

e: electronic power supply

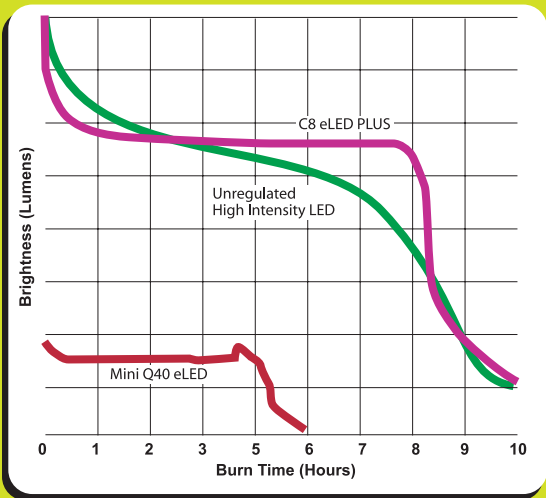

Only UK eLED lights feature a miniature electronic power supply that delivers more constant light output before fading. This means you have bright light for longer dives and batteries last longer.

e: extreme durability

eLED is solid-state with no glass or filament and will not break when dropped. eLED lasts over 30 times longer than conventional lamps.

e: extraordinary illumination

eLED light is whiter and penetrates the water more effectively to better illuminate the wonders of the underwater world.

- eLED Burns Whiter and Shines Farther
- eLED Lasts 1000s Of Hours Before Burnout
- eLED Power Control Delivers Constant Light Output -
- eLED Is Durable And Dependable

SPECIFICATIONS

	Sunlight C8 eLED
POWER	9 watts (full power), 3 watts (half power)
BRIGHTNESS	170 Lm (high), 60 Lm (low)
LAMP	2 x 5 watt InGaN side-emitting white LED
BURN TIME	7.75 hours (alkaline) or 5.25 hours (UK NiCad Pak)
BATTERY	8 Alkaline C-cells or UK NiCad Pak or 8 NiMH C-cells
SIZE	3.2" diameter x 7"

UK Sunlight C8 : Unique optical design unites two high intensity LEDs into one beam with twice the intensity. eLED circuitry insures constant brightness throughout the battery life.

- Dual 5 watt LEDs combine to produce over 170 lumens with eLED power control for constant brightness
- Switch between full and half power to extend battery life
- Operates with 8 alkaline C-cells, NiMH rechargeable cells or UK Rechargeable NiCad Upgrade Kit
- Non-breakable Push Lock switch, integral pistol grip and shock absorbing bezel cover
- Tough, non-corroding ABS and polycarbonate plastic case construction in black or yellow

UK Sunlight C4 : High intensity 5 watt LED set in a large reflector provides maximum efficiency and sunlight white light for inspecting marine life among the rocks.

- Single high-intensity 5-watt LED produces over 60 lumens
- Switch between full and half power to extend battery life
- Operates with 4 alkaline C-cells, NiMH rechargeable cells or UK Rechargeable NiCad Upgrade Kit
- Non-breakable Push Lock switch, integral pistol grip and shock absorbing bezel cover
- Tough, non-corroding ABS and polycarbonate plastic case construction in black or yellow

Sunlight SL4 : This most popular BC and travel light is now available with UK's eLED technology.

The narrow sun-like beam is perfect for inspecting the reef and an emergency back-up.

- Single specially selected 3 watt LED set in a precision optical aluminum reflector provides precise and efficient illumination
- Rotary switch set for easy on and off with index finger
- Powered by 4 alkaline C cells
- Impact resistant rubber-sheathed bezel and rugged ABS case available in black, yellow, blue and lime
- Lanyard included.

Mini Q40 eLED plus : It's like carrying the sun on you mask or in your hand. The Mini Q40 eLED plus powers a bright white LED at 2 watts in a case small enough to carry on your mask strap.

- Single high-intensity 2-watt LED focused into a tight beam with UK's own projection optics
- Mask mounting strap for hands-free lighting
- Quick load battery system
- Impact resistant rubber-sheathed bezel with rugged ABS case that won't crack, chip, dent or fade
- Available in black, yellow, blue and lime

Mini Pocket Light eLED: This tiny package packs a punch by producing a soft-edge disk of even illumination which is preferred for map reading and close-up work.

- Single high-intensity white LED delivers 20 hours of maximum brightness before fading to a low-level glow for an extended period
- Nylon clip included for attaching to the brim of a cap
- Key ring for use as a pocket light
- ABS and polycarbonate plastic construction
- Available in black or yellow

Light Cannon™ 100

You have to see it to believe it! Utilizing the latest HID lighting technology, the Light Cannon 100 emits a beam of light as white as the Sun and penetrates water farther than any conventional halogen or Xenon dive light.

Perfect for
Video and
Digital
Lighting

- New miniature HID lamp gives a giant leap in brightness with no increase in battery usage
- High color temperature gives the beam the same color as sunlight
- Up to 500 hour lamp life
- Unique spectral mix allows light to travel farther underwater
- UK Rechargeable NiCad Upgrade Kit available for higher average brightness and battery saving
- Two filters included to expand beam width (40°) for video and digital photography
- Non-breakable locking switch
- Polarized battery compartment reduces battery leakage
- Pistol grip and rubber sleeve lanyard included
- Tough, non-corroding ABS, TPE and polycarbonate plastic case construction

- 3x more efficient than standard lights
- Most powerful light available for its size
- First affordable HID light for divers
- Now available in Black and **NEW Fluorescent Yellow**

UK Sunlight D8

UK Sunlight D4

UK Sunlights D8 and D4: Powerful and Versatile with Extreme Brightness-To-Size Ratio

- Unique dual-lamp shuttle system allows you to switch between two different lamps underwater for back-up or low and high beam when using UK Rechargeable NiCad pack
- UK Rechargeable NiCad Upgrade Kit converts D8 from 14-watt standard alkaline disposable power to super bright 30-watt rechargeable NiCad power – Converts D4 from 5.8-watt to 18-watt rechargeable
- Non-breakable locking switch
- Pistol grip can be attached next to or opposite switch using twin dove-tail mounting slots
- Tough, non-corroding ABS and polycarbonate plastic construction
- Available in black or yellow and includes rubber sleeve lanyard (accessory lantern grip available)

UK Sunlight C8

UK Sunlight C4

UK Sunlights C8 and C4: Most Popular with Divers Who Want a Big Light in a Small Case

- Dual-lamp system gives you the advantage of switching underwater between high or low beams and the assurance of emergency back-up
- UK Rechargeable NiCad Upgrade Kit converts C8 from 13.2-watt standard alkaline disposable power to bright 20-watt rechargeable NiCad power – Converts C4 from 6.6-watt to 10-watt rechargeable
- Polarized battery compartment reduces battery leakage
- Non-breakable Push Lock switch, integral pistol grip and shock absorbing bezel cover
- Tough, non-corroding ABS and polycarbonate plastic construction
- Available in black, yellow, blue and lime with rubber sleeve lanyard included

UK Sunlight SL6 and SL4

The brightest dive lights available that still fit easily in your BC pocket.

- Compact for looking into cracks and under ledges
- Powerful enough to be used as an emergency primary night diving light
- Precision solid aluminum reflector gives bright, narrow beam for spotting distant marine life
- Bezel is over-molded with black rubber to reduce glare and protect lens
- Switch is convenient for single-handed operation
- Available in black, yellow, blue and lime

UK Mini Q40

Compact design lets you take on every dive in your BC pocket. Ideal for use as a hands-free mask light or for checking gauges. Over twice as bright as premium lights of similar size. Also available as LED.

- Mask strap attachment included for hands-free lighting
- Works great as a photographers spotting light
- Rubber sheath molded over bezel to reduce glare and improve impact resistance
- Available in black, yellow, blue and lime

UK Sunlight SL6

UK Sunlight SL4

 Also available with eLED (see pages 4-5)

UK Mini Q40

 Also available with eLED (see pages 4-5)

UK 2AAA Penlight: In or out of water, this pocket penlight is perfect for looking in gear bags, repairing equipment, viewing gauges or examining marine life

- Brightest 2AAA light in its class
- O-ring sealed against dust, water and mud
- Red LED available as accessory for protecting night vision
- Available with fiber optic probe
- Non-corroding materials
- Available in black and yellow
- Comes with eLED (burns approx 20 hrs) or High Intensity Xenon (burns approx 1.8 hrs)

UK 2AAA Penlight

UKE 2L Lithium: Great emergency light. Perfect for situations where bright light is necessary after long periods of standby non-use.

- Rubber sheath molded over bezel to reduce glare and improve impact resistance
- Two lithium batteries will last for 5-10 years of non-use
- Clip included for attaching to gear
- Available in black and yellow

UKE 2L Lithium

UK 2AAA Mini Pocket Light: Clips to hat or clothing for hands-free lighting while doing repairs, maintenance, walking in the dark or diving.

- Incredibly bright for its size
- Small enough for a key ring
- O-ring sealed against mud and water and will not corrode when wet
- Red LED available as accessory for protecting night vision
- Choose black or yellow case,
- Comes with eLED (burns approx 20 hrs) or High Intensity Xenon (burns approx 1.8 hrs)

UK 2AAA MiniPocket Light

Dive Beacon: Dependable high visibility personal marker beacon for night diving

- Long burn time and high brightness make it a perfect replacement for chemical light sticks
- Lanyard included for easy attachment
- Always ON, no annoying flashing
- Optional white LED (20 hour burn time)
- Available in lime

Blue Tang Dive Knives

Blue Tang is the UK signature line of dive knives. For the ultimate in corrosion-resistance choose Titanium. Or take HYDRALLOY™ for a great value knife with the sharp edge of 420 SS and the corrosion-resistance of 316 SS.

- Choice of two blade styles: drop point and blunt tip
- Available in Titanium or HYDRALLOY™ blades
- Double-edge hollow ground straight and serrated edges
- Hooked edge line cutter
- Signaling pommel made from same material as blade
- Large choil and contoured handle gives you a powerful grip
- One hand insertion and removal from sheath
- Ozone-resistant quick release knife straps included

- Blue Tang - The Ultimate Dive Knife
- Available in Titanium or HYDRALLOY
- Extreme Corrosion Resistance
- Drop Point or Blunt Tip Blade

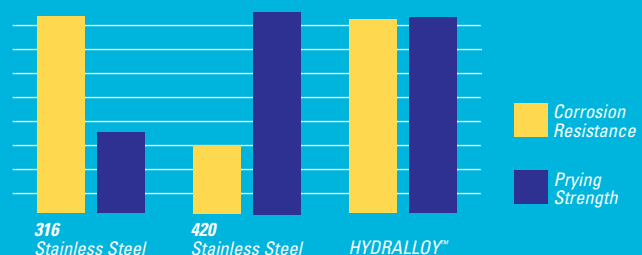

Why HYDRALLOY?

We gave ourselves an assignment: Create a dive knife that is strong and keeps a keen edge comparable to 420 SS, resists corrosion like 316 SS, and is less cost than titanium. Our solution: HYDRALLOY. By combining a unique blend of alloys and proprietary finishing technique, we've developed a superior new brand of stainless steel for dive knives.

HYDRALLOY™

Compare HYDRALLOY™ to other stainless steel alloys

BlueTang™
TITANIUM

HYDRALLOY™

REMORA™
BC Knife

 TITANIUM
HYDRALLOY™

Remora BC Knife: This is the one knife all divers should own and take on every dive. Small size, attachments for belt, hose or fabric and no maintenance design make it the perfect emergency knife.

- Available in Titanium or HYDRALLOY™ blades
- Small size – 7"
- Attaches permanently to BC or regulator hose
- Serrated blade cuts through rope and fishing line
- Sheath attachment kit included for BC strap, pocket or 1/2-inch air hose

Dive Knife **FUSILIER**

 HYDRALLOY™

Fusilier Dive Knife: This full-featured knife is the perfect knife for divers who do not want to carry a big knife. It is small, lightweight and designed to fit every diving style.

- HYDRALLOY™ steel blade
- Handle disassembles quickly for cleaning – no tools required
- Full choil for power grip on blade
- Serrated edge for cutting rope or line
- Hooked edge line cutter
- One hand insertion and removal from sheath
- 4-inch double-edge hollow ground blade design
- Ozone-resistant quick release knife straps included

NEW
Auto-venting latch

UltraCases

Protect delicate photo and dive equipment during travel and storage with these rigid wall, o-ring sealed cases.

- New auto-venting latch equalizes pressure when opened
- Silicone o-ring sealed
- Floats if dropped overboard
- Protects against salt air, sand and dust
- Durable non-corroding engineering grade ABS plastic construction with full length stainless steel hinge pin
- Padded handle for carrying comfort
- Loops for padlock or security seal
- Meet most airline carry-on regulations
- User customizable dice foam padding
- Available in black and yellow

Dry Case Internal Dimensions

UK Cases and Boxes equals maximum protection for even the most sensitive equipment

Our watertight cases are available in a variety of sizes with optional latch and handle styles, custom interiors, special colors and engineering grade plastics. Silicone rubber seals keep out rain, mud, dust and damaging fumes. Tough ABS construction helps to render our cases virtually indestructible.

Clear View Dry Boxes

Clear View Dry Boxes: Superior waterproof container for protecting water sensitive items. Optional Clear View lid permits viewing the contents without breaking the waterproof seal.

- High impact ABS body, for added strength, stainless steel hinge and latch pins
- Silicone rubber seal keeps out water, dust and corrosive gasses
- Opaque or tinted clear lid
- Woven black nylon carrying strap included
- Available in black and blue

Internal Dimensions

Model	Length	Width	Depth
409	8.5"	6.0"	3.6"
609	8.5"	6.0"	5.4"

309 Dry Box

309 Dry Box: Economical, waterproof container for protecting GPS, tools, first aid, fishing gear, maps, etc.

- Silicone rubber seal keeps out rain, mud, dust and damaging fumes
- Tough ABS and stainless steel corrosion-proof construction
- Strong molded-in handle
- Available in black, yellow, blue and lime

Internal Dimensions

Mode	Length	Width	Depth
309	8.5"	6.0"	3.0"

Transit Cases

Transit Cases: Rigid reinforced walls, extendible handle, large wheels and spring loaded steel handles give maximum protection for delicate dive and photo equipment.

- Silicone o-ring sealed
- Protects against salt air, sand and dust
- Withstands 1-meter submersion test
- Durable, non-corroding high impact injection molded ABS plastic construction
- Loops for padlock or security seal
- Pressure relief valve allows easy opening after altitude or temperature change
- Optional user configurable pluck foam filling
- Optional 2.6" recessed wheels and retractable handle
- Stainless steel spring loaded handles and latches

uniBAG

The UniBag: Versatility Underwater and Above

The Ultimate Dive Bag

Whether you need an open-mouth game bag underwater or a backpack-style gear bag, the Unibag does it all.

- Wide open-mouth design for easy access – even underwater
- Comfortable molded carrying handle with locking clip
- Folds flat for easy storage
- Streamlined for swimming
- Versatile straps for backpack or shoulder carrying

Mesh Bag

Great for game or as a boat bag

- Tough polyester mesh
- Durable molded no-rust carrying handle
- Wide open-mouth design
- Remains rolled up for streamlined swimming
- Easily clips to weight belt or BC

Hangers and Tank Boots

Super B.C. Hanger: Keeps your expensive BC and regulator off the floor for proper drying and storage.

- One piece I-beam construction molded in non-corroding plastic for strength
- Supports up to 20 pounds
- Size: 1.2 x 16 x 10 inch

Exposure Suit Hanger: Hangs exposure suit in a natural shape for good ventilation and drying while eliminating pressure points and wrinkles that cause damage.

- Strong enough to hang the heaviest water loaded exposure suit
- Tall hook accommodates hooded models
- Two sizes: Regular 4.5-inch shoulder width – Small 3.0-inch shoulder width
- Supports exposure suits up to 50 pounds

Ready-To-Go Dive Case

The first **3-in1** transportation solution made expressly to carry dive gear.

- UK 1127 Transit Case works for air and road travel to protect your valuable gear from mishandling, theft and the elements
- UK 309 Dry Box is great for storing and transporting your mask or keeping smaller valuables and personal electronics safe and dry
- UK Unibag deluxe mesh bag is great underwater and on the surface

Accessories

Visit www.uwkinetics.com for full details on all UK accessories

- Regulator Mouthpieces
- Hose Protectors
- Mask Straps
- Snorkel Holders
- Fin Straps

Super Hanger: Useful and economical for hanging a variety of dive equipment.

- One piece molded non-corroding plastic with I-beam construction for strength
- Supports up to 20 pounds
- Size: 1.2 x 16.6 x 9 inch

Super Accessory Hanger: Ideal for drying and storing gloves, booties and hood.

- Non-corroding one piece I-beam plastic construction for strength
- Supports up to 20 pounds
- 1.2 x 13 x 20 inch

Scuba Tank Boots: Tank boots help stand a scuba tank upright during the pre-dive setup and protect the bottom finish of the tank and surfaces where they are placed

- Inner ribs allow water to drain from between the tank and boot
- Material resists cracking in cold water
- Octagonal rim option helps prevent tank roll.
- Rimless tank boots fit better in tank racks
- Sizes for aluminum and steel tanks in 6.9, 7.25 and 8 inch diameters
