

# UNCOMPROMISING PERFORMANCE SINCE 1971™

## Other Great Products

### Lights

Hey, what good is a lifetime warranty if you gotta send your light back for repair every time you use it? Other companies say that they make tough portable lighting, but only UK lights have gone to hell and back and kept on working. We've been making the world's toughest lights since before other companies knew what Xenon was.

### Knives

UK doesn't just make knives, we designed a proprietary stainless steel called Hydralloy that holds an edge like carbon steel and resists corrosion like stainless. We also make knives using titanium, you know like they make fighter planes and race cars out of. Who else would do that?

### Hangers

If you want it to work, buy a UK Hanger. If you want to find your wetsuit on the ground still wet the next day 'cause the hanger broke, buy someone else's hanger. It sounds lame, but we take hangers seriously.

## Meet the Company that started it all...

35 years ago UK International was the first to make injection molded protection cases, high performance waterproof lights and innovative accessories. From LitLink utility tools to eLED dive lights to LoadoutCases™, we strive to make your job easier, protect what's important and deliver value. "Uncompromising performance since 1971™" is not just our tagline, it's our way of life.
